SUMMARY

B.Tech Computer Science graduate (2026) with a solid technical foundation across Python, Java, and databases, backed by hands-on project and internship experience. Strong problem-solving skills built through active DSA practice and debugging real applications end-to-end. A quick, self-driven learner — currently building skills across multiple technical tracks alongside coursework. Comfortable communicating clearly, working in a team, and adapting fast to new tools and environments. Immediate joiner, open to night-shift working hours.

TECHNICAL SKILLS

- Programming: Python, Java (OOP fundamentals), JavaScript
- Problem-Solving: Active daily DSA practice (arrays, strings, recursion, sorting/searching, basic trees & graphs)
- Web/Backend: Flask, Node.js/Express, Java Servlets/JSP
- Databases: MySQL, JDBC, SQLite — schema design, SQL queries
- Soft Skills: Clear communication, teamwork, adaptability, structured problem-solving
- Tools & Other: Git, REST API design & testing, basic OS/Linux concepts

PROJECTS

Online Job & Internship Portal | Personal Project

- Built a full MVC web app using Java Servlets, JSP, and JDBC with MySQL — designed the relational schema and wrote the SQL queries for job listings, applications, and user roles.

Student Management REST API | Personal Project

- Built a REST API with Python (Flask) and SQLite to perform CRUD operations on student records.

Sales Data Analysis | Personal Project

- Analyzed sales datasets using Python (Pandas, NumPy) — cleaned the data, identified trends, and built visualizations with Matplotlib.

INTERNSHIP EXPERIENCE

Full-Stack Developer Intern | Amstech Group — *May 2025 – Nov 2025 (~7 months)*

Java Developer Intern | Web Dev Technology — *Apr 2024 – Jun 2024 (~3 months)*

EDUCATION

B.Tech, Computer Science Engineering | IPS Academy (IES), Indore — *2022 – 2026*

CERTIFICATIONS

- Oracle AI Foundations Associate
- Coursera — Introduction to Databases
- Coursera — Java Full Stack Development
